

VISIT TO THE APPLE STORE LIVERPOOL ONE

MARCH 25th 2009

The Manager of the Apple Store and Mike Young a tutor at the Store extended an invitation to Heswall Photographic Society to make use of the facilities of the Store and avail of free Workshops that they could arrange.

This was discussed at Committee on March 2nd 09 and it was agreed that we should follow up on this. The following members visited the Store on March 25th 09: Colin Phillips, Pat Clare, Alan Clare, Iain Francis, Marion Pope, Martin Eves and Georgina Keena.

Our purpose on visiting the Store was to meet with Mike Young and hear what was on offer and clarify what might be of use to interested members of our Society.

Mike can arrange for workshops on a given subject suggested by ourselves. He uses “Aperture” which is the Apple photographic manipulation software as well as Photoshop –CS4. He is keen on file management and is prepared to run workshops at the Store. These would be for about an hour and would take place in the evenings at the Apple Store using their facilities. The room can accommodate about 10 persons.

Additionally Mike can arrange for individuals to be helped with their own images which they can work on at the store and be helped by Mike or other tutors depending on numbers. Mike Young can also run a Workshop for our Society as an Independent but he would need to get the permission of his shop manager.

All dates and times can be agreed once it is known the wishes of the HPS members.

All present were keen to make use of this offer. If you would be interested in attending a free workshop please indicate your intention by completing the slip below and giving it to Georgina by **April 24th 2009.**

I am interested in attending a Workshop at the Apple Store Liverpool One.
